## Planting Methods & Selection

---

A module of the "Tree Site and Selection" Advanced Training Domain

**May 6 & 13, 2017**  
**12:00pm - 4:00pm**

Village of Arlington Heights  
222 North Ridge Avenue  
Arlington Heights, IL 60005

[www.illinoisarborist.org](http://www.illinoisarborist.org)

## Course Highlights

This Advanced Training Course will focus on the various tree planting methods which are appropriate for specific projects. The course will focus on planting balled and bur lapped trees, bare root trees, containerized trees which have been locally transplanted from wild stock. We will examine the advantages and disadvantages of each, as well as the specifics of the site preparation, installation techniques and post-installation maintenance for each differing planting method. We will also closely examine when it is appropriate or cost effective to use each of these methods and how to select high-quality nursery (or wild) stock.

Our goal is to help educate municipal and commercial students on the vast array of options available to them when it comes to selecting and installing trees on various projects they may encounter, in order to save money and promote using the right technique for the right situation.

### Deadline for registration is April 28

If you have any questions about the class, call Jeannie or Monica at 877-617-8887.

This course is worth 8 CEUs total.
