

Location:

Lincoln Land Community College
5250 Shepherd Road
Springfield, IL 62794

Instructor: Aaron Schulz

What to expect from this class:

Upon completion of the Abiotic Problems module, each participant will gain knowledge of the following:

- A better understanding of common abiotic stresses on woody plants.
- The ability to differentiate between abiotic, biotic and look-a-like disorders.
- Skills essential to the diagnostic and decision making process.

A better understanding of tools to aid the arborist while diagnosing plant problems.

The deadline to register is April 21.

If you have any questions, you may contact Jeannie or Monica at 877-617-8887 or email jeannie@illinoisarborist.org or monica@illinoisarborist.org.

This class is worth a total of 10 CEUs.

Abiotic Problems

A module of the "Pest Diagnosis
and Management" Advanced
Training Domain

**Saturday's from 9:00am-3:00pm
April 29 & May 6, 2017**

Lincoln Land Community College
Sangamon 1102 Room
5250 Shepherd Road
Springfield, IL 62794

www.illinoisarborist.org

Course Highlights

This IAA Advanced Training Course will provide an in-depth study of common abiotic stresses on trees and woody plants. We will discuss specific abiotic disorders associated with environmental conditions, nutrient deficiencies, chemical injury, animal and mechanical damage along with various other stresses people inflict on plants. We will also cover diagnostic skills needed to recognize these stresses and suggest remedies to correct, minimize or prevent these problems. We will discuss the importance of laboratory analysis of soil, water and tissue samples in properly diagnosing plant problems.

Weather permitting, outdoor sessions will be conducted and case studies will provide hands on practice at diagnosing abiotic tree problems. During the outdoor sessions we will also evaluate various signs and symptoms, site conditions, and plant history, so that we can accurately identify the cause of the problem. Focus will be on the types of stresses that predispose trees to decline. Materials will be covered through PowerPoint slides and field case studies. A 50-point multiple choice test will be given at the end of class.

Recommended reading: Abiotic Disorders of Landscape Plants, A Diagnostic Guide, Lawrence R. Costello, Edward J. Perry, Nelda P. Matheny, J. Michael Henry, Pamela M. Geisel, 2003.

Deadline for registration is April 21, 2017.

If you have any questions about the class, call Jeannie or Monica at 877-617-8887 or email jeannie@illinoisarborist.org or monica@illinoisarborist.org.

About the IAA Advanced Training Program

This class is a required module for the Advanced Training Domain "Pest Diagnosis and Management." This domain will provide additional training on proper plant selection, proper plant identification and knowledge of the site requirements for the plant.

A Certified Arborist interested in the Advanced Training Domain will need to complete four required modules plus one elective.

Pest Diagnosis & Management Modules

Insect and Mite Pests - Required

Tree Diseases - Required

Abiotic Problems - Required

Pesticide Safety & Application - Required

Introduction to PHC/IPM - Elective

Soils and Nutrient Management - Elective
