Insect & Mite Pests

Deadline for registration is June 2, 2017.

Member Cost: \$150 and Non-Member Cost: \$190

Check here to pay Member Dues - \$45

Course Highlights

The Insect and Mite Pest module will focus on insect and mite pests affecting woody landscape plants. Emphasis will be placed on pest identification, biology, population dynamics, and non-chemical and chemical management strategies. Students will be expected to have a working knowledge of basic insect biology, anatomy, and principles of integrated pest management (IPM) and/or plant healthcare (PHC).

If during the field season, outdoor field studies will be conducted.

A comprehensive final exam will be given at the end of the course, and will be required in order to get Advanced Training credit for the module.
